Andhra Pradesh State Centre

Report on

World Environment Day

06th June, 2019 : The Andhra Pradesh State Center of IEI Celebrated World Environment Day at our State Center premises by planting saplings in the Flower Pots to mark the above occasion. Around fifteen Corporate Members which includes past Chairmen, committee members and others have participated in the program.

After planting the saplings, the members present gathered and discussed about how to safeguard the environment, since huge number of trees have been cutting across the country and planting of saplings are very much less, resulting in global warming and facing hot temperatures etc. etc. Air & Sound pollutions are also damaging much on the human lives.
